

**Attention  
Parents!**

# **TEXAS YOUTH HUNTING PROGRAM**

If you have a child 9 to 17 years old who wants to learn more about wildlife and hunting, TYHP offers the opportunity to spend some quality time in the outdoors learning together and making memories.

## **Who we are:**

The Texas Youth Hunting Program was established by Texas Parks and Wildlife Department and Texas Wildlife Association to increase the numbers of youth participating in wildlife and hunting activities.

## **What we do:**

Since 1995, the TYHP has been conducting affordable weekend hunts for youth run by experienced volunteers. Our hunts teach outdoor skills, safety, wildlife management, personal responsibility and respect for private property.

## **Why it's important:**

Kids who participate in our youth hunts have fun while learning about wildlife and nature. They learn about natural resource conservation and management and how to be safe in the outdoors from game wardens, biologists, landowners, experienced hunters, and hunter education instructors.

**Come join us to learn and share some special time with your child.**
